COMMENTS FROM THE TOWN MANAGER'S OFFICE

The final two consulting engineering firms have not been interviewed yet. The selectmen have been very busy this spring. Besides the regular business that must be taken care of in normal operation of municipal government, 2 items have consumed a lot of time. The formation of a school administrative district has been of vital interest to the selectmen and it has taken some of their time. The construction of the fire station is the other unusual item that has taken extra time. Everything has been very satisfactory in the construction of the new station but there have been some very time consuming details. I don't believe most people appreciate the amount of time and work that the selectmen give the town in the performance of their duties.

The state aid construction for the year on Route 55 has been approved and will be started the first of July. The amount of town and state money available will very nearly complete the road to the Bethel-Greenwood town line. The selectmen have requested that the State Aid Division of the State Highway Commission provide enough money to complete the job this year. The State Aid Division has the request under consideration.

The assessing is moving along at a fair rate and many of the difficult problems have been taken care of. A few more sessions and I believe the assessment will be ready for commitment to the tax collector.

The questions of the time and way of voting for the school administrative district have been asked. I believe the date for voting will be July 14. Of course the regular posting of the warrant will have to be done before any action can be taken. I think that the question of joining or not joining the district is by secret ballot as is the election of the directors to represent the town.

TRUSTEES AUTHORIZE GOULD TO NEGOTIATE WITH U. OF M.

The spring meeting of the Board of Trustees of Gould Academy was held on Monday, June 14, and was followed by an informal meeting Monday afternoon with members of the Board of Trustees of the University of Maine. At its meeting the Gould Board of Trustees received the report of its Planning Committee and authorized the negotiation of an agreement with the University of Maine with respect to the establishment of a branch college of the University.

It was further resolved that Gould Academy shall continue to provide secondary education facilities through the academic year 1966-1967.

The Gould Planning Committee also recommended to the Gould Board of Trustees that the Gould Charter be amended for legal reasons to permit the Academy to offer courses of instruction usually taught "in junior colleges, colleges, universities and other institutions of higher learning" and that the purposes of Gould be further enlarged as follows: "And for the additional purposes of granting scholarships and fellowships and making loans to deserving students from the Town of Bethel, from the County of Oxford and from the State of Maine at educational institutions wherever situated; making gifts and grants to institutions organized and operated exclusively for educational purposes; no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation; and the advancement of education in said Town, County and State and doing all acts and things pertaining or incidental thereto."

Dr. Sidney W. Davidson, President of the Gould Board of Trustees pointed out that after the establishment of a branch college of the University on the campus, Gould would no longer operate an educational institution but that the corporation would continue in existence with its present trustees to manage the Gould endowment funds and real property not transferred to the University.

At the joint meeting with the U. of M. trustees Dr. Davidson reported on the action taken at the Gould meeting and outlining the procedures which might be followed to accomplish the change by the target date of Sept. 1, 1967. Dexter Stowell, a member of the Gould Board and chairman of the Bethel School Committee reviewed developments with respect to the formation of a School Administrative District for the towns of Andover, Bethel, Greenwood, Newry and Woodstock and Edmund Vachon, Gould Headmaster and a member of Gould Board of Trustees reported on alumni reaction to the proposal. He mentioned that the alumni were pleased that provisions will be made for preservation of the records of Gould Academy and its alumni and Gould trophies and memorabilia.

Dr. Lawrence Cutler, President of the Board of Trustees of the University of Maine expressed enthusiasm for the project and pointed out that it offered great benefits for future generations of Maine youth.

President David H. Elliott of the University described briefly the possibilities for the development of new approaches to education. He commented that the University Trustees appreciate the opportunity to serve the needs of Western Maine for higher education and at the same time to lessen the pressures resulting from the great increase in number of young people seeking higher education.

GOULD COMMENCEMENT HELD LAST WEEK END

Gould Academy commencement activities got off to a fast start last Friday with Class Day festivities. The morning program included the Senior Prophecy, Class Will, Class History, with presentation of awards by Headmaster Edmund Vachon. This was followed by the class picnic at Lake Thompson, Otisfield.

On Saturday morning at 11 o'clock the annual meeting of the Alumni Association was held. The following officers elected: President, Edward Wheeler; Vice President, Warren Hastings; Secretary, Francis Berry; Recording Secretary, Alberta Merrill; Treasurer, Mrs. Ordell Anderson.

After a discussion concerning the future of the Association it was decided to have the Executive Committee act as a study group to investigate several alternatives and report at the 1966 meeting.

Dr. Sidney W. Davidson, president of the Gould trustees, assured those in attendance at the Alumni Luncheon that efforts would be made to preserve the Gould name. He stated that facilities would be available for the preservation of alumni records, school trophies and memorabilia.

Dr. Davidson commented on a letter that he received from Harry Mason of Bethel. Dr. Davidson said that his old and dear friend, Mr. Mason, in his 97th year, and his wife, have for years had a close association with Gould. On the occasion of the announcement of the possibility of a merger of Gould and the U. of M. Mr. Mason sent a letter in support of Dr. Davidson's feeling on the matter.

Upon the occasion of a recent conversation with him, Dr. Davidson recalled that Mr. Mason recounted, from memory, this poem to point up the fact that changes take place in one's lifetime.

One's life is an opportunity no less than youth itself. Though in another dress, I have learned Greek at eighty. Sophocles wrote his masterpiece When more than eighty years were passed.

There are limited exceptions but they show how far into the Gulf Stream of Life one can stray. How late into the Arctic region one can live. "One's life is also than life itself survives."

The featured speaker at the luncheon was Arnold McKenney, principal of the Central Maine Technical Institute, on the subject of "Technical Education."

On behalf of the Trustees Dr. Davidson presented to Headmaster Vachon a Paul Revere Award inscribed as follows: "Edmund J. Vachon - Teacher, Headmaster and Trustee in grateful recognition of 25 years of devotion to Gould Academy and service to her students 1940-1965." Around the edge of the award were the words "Gould friendship with God and"

one another and fear no evil." At the Alumni-Gould ball game the Academy pastimers were victorious.

The Commencement Ball was held Saturday evening with the music of Lloyd Raffell and his orchestra. The Bingham Gymnasium was decorated as a South Sea Paradise.

On Sunday morning the Baccalaureate Services were held at the West Parish Congregational Church with the sermon delivered by Rev. Kenneth Brookes of the South Parish Congregational Church, Augusta. His subject was "Profit and Loss." Rev. Clifford Laws, West Parish Congregational Church, and Rev. Donald Hogg, Bethel Methodist Church, assisted.

At the graduation exercises Sunday afternoon the Misses Geneva Kimball and Ethel Kimball delivered the Salutatory and Valedictory addresses respectively.

Dr. Davidson introduced Dr. Robert E. L. Strider, president of Colby College, Waterville, who took for his theme Thoreau's "Walden," and the last—continued on page eight
